# Prof. Douglas attends Information Users meeting

PROFESSOR Daphne Douglas, Head of the Department of Library Studies at the University of the West In-

dies, Mona, was recently invited to attend an Expert Meeting in Espoo, Finland on Training Information Users in Higher Education. The meeting was organised

by the Helsinki University of Technology Library and was sponsored by UNESCO. It was held from the 13th to the 17 of August, 1990.

tion of Information specials and made proposals for action and recommendations.

The meeting was attended by seventeen experts from twelve countries. In addition there were three observers from International Organizations, and the officials from UNESCO and the Helsinki University of Technology Library.

Professor Douglas had cooperated in the preparation for the meeting by acting as the regional contact for the questionnaires which were distributed to collect data for the background document.

At the meeting, Professor Douglas was named Rapporteur and was responsible for the drafting of the final report. This report is to be issued as an official UNESCO document. The Meeting received country reports on relevant activities, dealt with the educational and management aspects of information users education and training in Higher Education, formal education and training in the prepara-
