BIN REYNOLDS MALACHI
The works of 'Kapo'

THE Mutual Life Gallery in association with Facey Commodity Co. Ltd., distributors of Perrier, will present the works of Mallica "Kapo" Reynolds, O.D. on Sunday, August 16, at 11:30 a.m. This exhibition by Jamaica's foremost intuitive artist, will be declared open by the Hon. Rex Nettleford, O.M.

KAPO — a well-known name locally and internationally; has earned his acclaim not only because of his exceptional talents, but also through sheer hard work and much determination. The reluctance, by Jamaicans, to accept his works during the early years of his career, did not deter him.

He first began painting in the

early 1930's. At this time the patrons of his works were basically tourists and expatriates. This neglect by his own, however, gradually changed for the better when the Jamaica Tourist Board used a photograph of him at work and he has steadily progressed from strength to strength, gaining numerous awards along the way.

This small, but exclusive exhibition will feature Kapo at his best in these current works and art patrons and lovers should endeavour to see this show which will feature the Revivalist Group of which Kapo is the leader.

Complimentary drinks for the afternoon will be Perrier Exotica. The show will run for two weeks.
