Arrangement

The bibliography is arranged according to the Dewey Decimal Classification.

It is arranged in two sections: a classified subject section and an index arranged alphabetically by author and title.

The most detailed information about an item is given in the Classified Subject Section. This includes the fullest form of the name the author used in his/her works, the full title, edition, place of publication, publisher, date of publication, number of pages, types of illustrations, series, size, notes, ISBN, ISSN, price and binding.

A shorter entry is given in the Index where the entries are arranged alphabetically under the name of the author, title or corporate body. The edition of the work, the publisher, price and binding, ISBN and class number are also included in the Index.
